59.

MEXICAN NEWS.

An oil refinery will probably be established at Monterey this spring.

Another brick manufacturing company is to be organized at Monterey.

The Mexican Central has invited bids for the erection of a hospital at the bar at Tampico.

A plant for handling large quantities of coal will be erected at Tampico for the Mexican Central.

A steam laundry, with latest improved machinery, was opened at Guadalupe last month.

Jose L. Garcia is building a modern hotel at Guadalupe, with elevators, electric lights, Turkish baths, etc.

In a few days the wagon road between Zitacuaro and Tlalpujahua will be opened. The convenience of this to the citizens of Michoacan will be very great.

A large delegation of leading merchants from Mexico, Central America and South America will visit the United States in a few weeks. The purpose of their visit is to get a better insight into the manner in which commercial affairs are conducted in this country.

In the state of Michoacan, during the month of February, 4,502 persons were vaccinated in the different districts of the state. If the proportion of vaccination continues to be so great, it is thought that it will not be long ere there is not a single case of small pox in Michoacan.

High political circles are filled with rumors of an impending change in the head of the Department of Encouragement which has been and continues to be so ably managed by the Hon. Manuel Fernandez Leal. The reason assigned for the reported change is the minister's eye sight which continues to grow weaker day by day under the strain of his arduous duties.

There is good money waiting for the man who supplies the main street of the City of Mexico with a first class restaurant, soda water and confectionery store. A little wine glass full of poorly frozen custard sells for 13 cents, and there is really not an inviting place in all the city where it can be secured.

The Resurrection mine, at Matamoros, has resumed operations under the direction of Dr. Jimenez. This mine has a vein which already is in pay. The vein runs east and west, and is about six feet wide. As shown in expert examination, the ores of Resurrection are quite as rich as those of La Paz, which adjoins it on the east.

Dr. Jose A. Garcia, a mail contractor, is endeavoring to reorganize the service between Tehuantepec and Oaxaca, so as to effect a saving of from six to ten hours time. This improvement will be of great public benefit, and owing to the rough character of the road, which unites the two cities, is an undertaking of no small difficulty.

Gen. Diaz has just been presented with a costly thoroughbred horse valued at \$15,000 of English breed and sorrel in color. It was reared on a stock farm in the state of Pennsylvania, owned by Don Cameron, who not forgetting the graceful President Diaz during his visit to Mexico last year, has employed this means of expressing his gratitude and appreciation. The contractor shipped the horse by express, the charges thereon being \$600 in gold.

The possibilities of Mexico's development can scarcely be comprehended at this late day. The recent discovery of vast beds of coal, of new oil and gold fields, are evidence that the resources of the country have by no means been fully exploited. The vast forests of fine woods, and the thousands of acres of fruit, coffee and grazing lands that are being brought within reach of markets by means of new lines of transportation with all their share to the wealth of the country and its advancement.

MINING NEWS.

The Silver City, New Mexico, Enterprise of April 23, gave a lengthy account of a big mining deal which has been consummated at that place by D. B. Gillette of Prescott, representative of the Hearst estate, whereby the latter purchased the Pacific group of gold mines at Pinos Altos, paying for them the princely sum of \$250,000. The Enterprise reports it as being the biggest cash sale of mining property made in New Mexico in many years. The mines were formerly owned by Bell and Stevens of Pinos Altos. "In all the company acquires," says the Enterprise, "fifteen valuable claims, a twenty stamp mill in fairly good condition and a ten and five stamp mill. Included in the transfer are also four ranches, known as the Schaefer, Bennett, Landrum and Geiser ranches, upon which are large and ever flowing springs, which will furnish an ample supply of water for mining and milling purposes. A run of gold ore from these mines last summer, the result of a forty-six days' run of the ten-stamp mill, gave a return of over \$20,000. Mr. Gillette has been negotiating for several months for the purchase of this property, and has spent considerable time there in making his examinations, mill runs, etc. He and two or three assistants have spent the last two months continuously there, and as a result, the purchase has been made as stated."

Mike Rice of Arizona, anywhere from the northern to the southern, or from the eastern to the western line of the territory, and well known everywhere, is in town. He has been prospecting out in the desert country northwest of Yuma, in California and near the line of the A. & P. He has a number of good properties, which, if he can induce capital to take hold of, will be developed. If he is not successful in that he will return to his claims in the fall, when cooler weather sets in, and develop them himself.—Yuma Sun.

Iron, Thos. F. Weedon is putting up machinery on his Arcade group of mines, in the Tortillitas, and before many weeks will be making regular shipments of concentrates. The machinery consists of a 10-horsepower Weber gas engine, a contracting mill capable of working a ton of ore an hour, a Blake crusher, and a Hartz jig and sizer. Twenty tons of ore will be reduced to one and shipped. The Arcade mine at a depth of 125 feet has a four foot vein of ore which assays 55 ounces to the ton.—Florence Tribune.

A fine body of copper ore, carrying considerable iron, was encountered at a depth of 75 feet, in the shaft on the Dadeville claim a few days ago. The Dadeville is one of the principal claims of the Black Warrior Copper Co., situated in Webster gulch. Also on the Eagle property, recently bought by the company, sulphurets have been found in the shaft which is being sunk.—Globe Silver Belt.

The Banner mine in the above district was worked recently by Bethune & Satterwhite is showing up fine, they are working two shifts a day and are in a fair way to have one of the best mines in the territory. They have a large body of ore which is increasing in volume the further they go into it.—Tucson Citizen.

A LIVELY GAME.

Nogales Has a Hot Game of Pool.

Steve M. Aguirre and Pete Hanna had a lively game of ball-pool at Becker's saloon Sunday. Both are first-class players and some of their friends induced them to have a test. Two hundred dollars a side were put up on the first game which resulted in Hanna winning, with a score of 100 to 80 points. The second game was for 25 a side and Hanna again won, the score standing 100 to 75. There will be another game in the near future as the friends of Mr. Aguirre still think he can win.

Celebrated for its great leavening strength and healthfulness. Assures the food against all acid and all forms of adulteration common to the cheap brands.

A Phoenician Abroad.

A. Redevill, of Phoenix, is with us in the interest of his big piano house. Besides rustling for business Mr. Redevill finds time to send breezy letters from all places visited to the Phoenix Gazette, setting forth the advantages and resources of the various places. A thorough friend of our territory, he is always calling attention of the outside world to the great undeveloped resources. In Phoenix Mr. Redevill pays taxes on large property interests. He has the only house in the territory that carries a big stock of musical instruments. He is responsible, reliable and thoroughly honest. Give this home institution your patronage and let fake houses go by the board.—Mo-have Miner.

PICNIC AT CIBUTA.

Nogales People Take An Outing There.

Last Sunday a number of Nogales people went to Cibuta on the morning train and returned at night. Plenty of good things to eat and drink were taken along and the day was pleasantly spent beneath the big shady cottonwood trees of Don Jose Pierson's home ranch.

Those who composed the party were Mr. and Mrs. P. J. Zeimet, Mr. and Mrs. E. J. Gibson, Mr. and Mrs. A. May, Mr. and Mrs. W. F. Overton, Miss M. Novion and Miss Frey, Mrs. H. J. Wood, Harry Mitchell and W. S. Cuddebeck. Messrs. Cuddebeck and Zeimet rode their wheels down in the morning and came back in the evening on the train.

Civil Service Examination.

The U. S. Civil Service Commission announces that commencing at 9 a. m. on May 29, an examination will be held at the Customs House in Nogales, Arizona, for the purpose of establishing an eligible register from which a selection may be made for filling a vacancy in the position of janitor in the federal building in Nogales. Applicants must be not less than 20 years of age. The examination will consist of a simple educational test. It is desired, if possible, that applicants for this grade be skilled workmen. Persons desiring to enter this examination should apply to the secretary of the local board of examiners at the custom house for application blanks and information. The blanks should be executed and filed with the secretary S. M. Aguirre.
